This class focuses on each child's creativity. This class will allow the child to experience many different art mediums include mod podge, clay, printing ink, fabric and mosaics. The child will also be encouraged to express his artwork with words. We will begin the year reading a story each week and the child will then use different art techniques (such as collage, papier-mâché) to show or express his comprehension of the story. Later in to the year, the class will combine creating with verbalizing in that each child's work of art becomes a story. This is an exciting way for a child to discover the world around him/her.

This class is offered for children 3-6 years of age (must have turned 3 years old by September 1st)
